## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicants' amendment filed August 18, 2004, has been entered and made of record.
2. Objection to Claims 1-9 has been withdrawn in view of Applicants' amendment.
3. 35 U.S.C. 112 second paragraph rejection of Claim 4 has been withdrawn in view of Applicants' amendment.

### ***Allowable Subject Matter***

4. The following is an examiner's statement of reasons for allowance:

The instant invention recites a method for multiple object recognition, as illustrated in Figure 1, comprising of roughly classifying all pixel points of optically acquired input images for emphasizing at least two object classes. Each pixel is subjected to the rough classification based on first criteria that determine whether or not a pixel is relevant for object recognition. A reduced image is formed from the relevant pixels, and irrelevant pixels are omitted. Subsequently, the reduced image is filtered for forming at least two correlated filtered images based on second criteria.

Classified images are formed from the filtered images by different classifiers that operate independently of any other classifiers and in accordance with predetermined rules to allocate with evaluation number the classified images to different object classes. Images are classified to different object classes based on a characterizing vector of a respective filtered image. The classified images are merged in accordance with an algorithm based on evaluation numbers to perform a combined global evaluation for

each object class. The global evaluation decides, based on the merged images for each pixel whether a pixel point of all remaining pixel points is still relevant and if so to which of the different object classes each relevant pixel point belongs.

The features identified, in combination, are neither discussed nor suggested by prior arts of record.

5. Claims 1-9 are allowed.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
